Introduction

Software Engineering undergraduate at Sri Lanka Institute of Information Technology (SLIIT) with hands-on experience in full-stack web and mobile application development. Proficient in JavaScript, React.js, Node.js, Express.js, MongoDB, and Android development using Kotlin. Strong understanding of Object-Oriented Programming (OOP), MVC architecture, RESTful APIs, and Git-based collaboration. Highly motivated, fast learner, and seeking a Software Engineer / Full-Stack Developer Internship to apply technical skills in real-world projects. Familiar with Agile development, SDLC, debugging, and deployment fundamentals.

TECHNICAL SKILLS

Programming Languages:

JavaScript, Java, PHP, Kotlin, SQL, Python

Frontend Technologies:

React.js, HTML, CSS, Tailwind CSS

Backend Technologies:

Node.js, Express.js, RESTful APIs

Databases:

MongoDB, MySQL

Mobile Development:

Android (Kotlin, XML)

Tools & Platforms:

Git, GitHub, VS Code, Android Studio, Figma

Concepts:

Object-Oriented Programming (OOP), MVC Architecture, CRUD Operations

CERTIFICATIONS

Python Beginner – Moratuwa Community IT Training Center (2024)

Computer Hardware Basics – Cisco Networking Academy (2023)

NVQ Level 4 – Computer Hardware Technician – VTA Sri Lanka (2021)

PROJECT EXPERIENCE

Hashti Safari Cottage – Hotel Management System [GitHub](#)

Full-Stack Developer | 2025

- Developed a full-stack hotel management system using React.js, Node.js, Express.js, and MongoDB, implementing 10+ REST APIs and 3 user roles (Admin, Customer).
- Designed and implemented RESTful APIs for bookings, users, and data management with authentication and validation.
- Implemented full CRUD operations and integrated frontend with backend using JSON
- Used Git and GitHub for version control and team collaboration

Online E-Shopping Store [GitHub](#)

Web Developer | 2025

- Developed an e-commerce web application with user authentication, product management, and admin dashboard functionality.
- Implemented CRUD operations using PHP and MySQL
- Built responsive user interfaces using HTML, CSS, and JavaScript

Daily Reminder & To-Do Web Application [GitHub](#)

Web Developer | 2024

- Built a task management system supporting 4 core features (add, edit, delete, complete) with responsive UI.
- Focused on clean UI design and efficient task handling

Find Sport Mobile Application [GitHub](#)

Android Developer | 2025

- Developed an Android application for sport activity tracking
- Implemented multiple Android activities using Kotlin and XML following MVVM-style structure.

HealthCare Mobile Application [GitHub](#)

Android Developer | 2025

- Developed a mobile application for health and activity tracking
- Used Kotlin, XML, and Android Studio for development
